EXPERIENCE

Road 2 Hire

October 2025

Technical Apprentice | real-world experience, mentorship, and professional development through a tech apprenticeship.

- Worked in an environment requiring timely completion of both administrative and technical responsibilities such as presenting to a group of 20 plus, consistently managing tasks and deadlines while presenting myself in a polished, professional manner.

Projects- Road 2 Hire

Code for Justice- "Bridge the bite"

- Collaborated with a team of five under a tight deadline of 4 days and starting from scratch, developing the product using JavaScript, HTML, and CSS while managing progress through Agile practices.

Ecommerce -

- Drew on knowledge gained from my coding program, shifting from hard-coded HTML to dynamically accessing and styling data from a JSON file to build new products more effectively.

CERTIFICATE

Securities Industry Exam(SIE)

Passed: March 2025
